

You may fill out this request by phone (618-337-9726) with an American Bottoms representative or send a completed form to HauledWastewater@AmericanBottoms.com Request Date _____

1. Applicant/Inquiry By: _____ Generator Transporter Consultant
 Full Company Name

Contact information: _____
 Name Email address Phone number

2. Generator of Wastewater: _____
 Generation Site Address: _____
 If generator is located in Illinois, please provide generator site's Illinois Bureau of Land Site ID number: _____

3. Description/type of wastewater: _____
 Describe wastewater generation process: _____

4. Volume of wastewater? _____ gallons per day week mo yr? One time On-going

5. Lab test results available? Yes No If yes, please attach.

6. pH range of wastewater : _____ - _____

If pH not known, does the wastewater contain acid, caustic, other strong bases? Yes No

7. Nature of waste- Please provide a response to each of the following questions.

- a. RCRA Hazardous waste?* Yes No
- b. Contains Industrial Process Waste? Yes No
- c. Contains Pollution Control Waste? Yes No
- d. Contains PCBs or pesticides? * Yes No
- e. Contains Mercury? Yes No If yes, maximum concentration? _____
- f. Contains Cyanide? Yes No If yes, maximum concentration? _____
- g. Contains sulfur or sulfide? Yes No If yes, maximum concentration? _____
- h. Food services operation grease?* Yes No
- i. Off-specification or unused chemical? Yes No If yes, please attach safety data sheet.
- j. Contains oil? Yes No Don't know If yes, what concentration? _____
- k. Contain ammonia, other nitrogen compounds? Yes No
 If yes, maximum concentration? _____
- l. Contains radionuclides? Yes No
- m. Contains PFAS¹? Yes No If yes, attach representative laboratory results.

*These wastes are not accepted for discharge.

8. Treatability: Any specific chemical constituents known? If lab results provided in question 5, only information about the wastewater not addressed in the lab report is needed here. Submit attachment or list below:

Constituent	Concentration	Measured or Estimated?

¹ Per- and polyfluoroalkyl substances (PFAS) are a group of man-made chemicals that includes PFOA, PFOS, GenX, and many other chemicals.

9. Strength of waste: Fill in any of the constituents that are known.

Constituent	Concentration	Measured or Estimated?
BOD COD (check one)		
Suspended Solids		
Oil & Grease		
Total Phosphorus		
Total Nitrogen or TKN		

10. Our facility can treat more than many treatment plants. Has this wastewater been rejected by other treatment facilities or disposal locations? Yes No

If yes, details _____

11. Wastewater subject to USEPA pretreatment standards? Yes No

Details: _____

12. Wastewater to be treated by POTW in order to meet EPA air standards (NESHAP)? Yes No

Details: _____

13. Any components which are flammable/explosive, such as solvents? Yes No If yes, flash point analysis is requested.

Details: _____

14. Any chlorine or sulfur-bearing materials? Yes No Details: _____

15. Will the wastewater be at ambient temperature? Yes No If no, what is temperature range? _____ - _____

16. Is the wastewater from multiple sources? Yes No

If yes, is any treatment -- separation, settling, neutralization, etc.--- be provided? Yes No

17. Waste haulers must be pre-approved. Approval requires submittal of IEPA Special Waste permit and insurance documents meeting American Bottoms requirements. Do you need a recommendation for a waste hauler? Yes No

If you have a waste hauler identified, please provide the following information:

Who will transport wastewater? _____

Transporter contact information: _____

Billing is based on truck volume not transported amount.

Comments/Questions: _____

Request Prepared by Signature _____ Date _____

Print Name _____ Title: _____
